## Easy to Set-Up for Your Operation:

### The OHAUS Valor 5000 Has All The Features You Need:

- **Selectable Weighing Units** – The Valor 5000 can be set up to display all, some, or only one weighing unit to match the requirements of your operation.
- **Lb & Oz Display** – The Valor 5000 can display a decimal pound to 3 decimal places, as well as fractional or decimal ounces, and can even display results in a combined lb:oz display.
- **Metric Display** – For metric use, the Valor 5000 can display results in kilograms or grams with a readability ranging from 0.5g to 2 g, depending on model.
- **Percent Weight** – Allows users to compare the weight of a sample as a percentage of a reference weight, useful for Baker's Percentages.
- **Change Units Quickly** – The unit displayed can be changed with a single key press.
- **Set It Up and Lock It In** – The Valor 5000 can be set to the mode and weighing units required, and then locked-in using either software or hardware locks. The OHAUS Valor 5000 can be locked to ensure the configuration you choose is the configuration you use!
- **Easy to Calibrate** – The Valor 5000's software menu allows the Valor 5000 to be calibrated to ensure accurate results. To prevent accidental recalibration, the Valor 5000 also can be configured using software and hardware calibration lockouts.

## For Checkweighing Applications, The Valor 5000 Can Be Quickly Configured:

The Valor 5000 can be set to either simply display a weight, or can be set to act as a dedicated, low-profile checkweigher for portioning and grading:

- **Portioning and Prepackaging** – With the positive checkweighing mode for packaging, add to the portion on the pan until you reach the weight you need.
- **Portioning Out of the Box** – Use the negative checkweighing mode for portioning and pizza making, portioning out of a container on the pan until the required weight is reached.
- **Sorting & Grading** – The “zero” checkweighing method is designed for sorting and grading operations, so you can check portions against preset limits.
- **Quickly Set Targets** – Target weights can be entered quickly using the dedicated Setpoint key.
- **Bright LED's and Buzzer Speed Use** – Progress against weight targets can be indicated with the three LED's, with indications for Over, Accept and Under with selectable audible buzzer.

### Outline Dimensions

## Designed for Food Service Use:

**Fast, Easy-To-Read Display** – The Valor 5000 is designed to clearly and quickly display weighing results:

- Large, backlit LCD display
- Fast display updates – within 2 seconds
- Bright LED indicators for Checkweighing mode
- Text display of weight units – no cryptic unit designations or hard-to-read annunciators
- Audible buzzer alerts user when limits are reached
- Battery power level indicator
- Bright annunciators for scale stability, center of zero, net and tare weights, checkweighing mode indication

**Manual or Auto Tare** – The Valor 5000 can be configured to tare three ways:

- Manual taring using the large, dedicated Tare key
- The Valor 5000 can be set-up to automatically tare the first weight placed on the pan
- For hands-free operation, the Valor 5000 can also be tared using the optional foot switch
